React / Next.js | TypeScript | Node + GraphQL | Shopify | AWS & CI/CD | Generative AI APIs

---

Front-end & full-stack engineer with 5 + years shipping high-traffic web, mobile, and AI-powered products for U.S. & UK startups and Nigerian scale-ups. Integrated OpenAI, LangChain, and IBM Watson to cut support workload 42h/week, built résumé-parser pipelines that trim user friction 40%, and reduced PWA LCP 40% for 120 k MAU. Adept at React 18, Next.js 14, Node/GraphQL, and AWS-based CI/CD; comfortable in no-code stacks (Webflow, Shopify, Wix). Remote-ready and obsessed with elegant UX backed by measurable business impact.

IMMIGRATION STATUS: Authorized to work fully remote from Nigeria; open to U.S. contract.
